Influenza, commonly known as the flu, is an infectious disease caused by an influenza virus. Symptoms can be mild to severe. The most common symptoms include: high fever, runny nose, sore throat, muscle pains, headache, coughing, sneezing, and feeling tired. These symptoms typically begin two days after exposure to the virus and most last less than a week.

Séquelles sociopsychologiques. Quand un tatouage initialement valorisant dans une certaine communauté, est devenu stigmatisant dans un autre contexte, le médecin, mais aussi le psychologue, psychiatre, travailleur social, parent, proches, etc. peuvent parfois avoir à prendre en charge une détresse psychologique.
