Systemic functional linguistics (SFL) is an approach to linguistics that considers language as a social semiotic system.. It was devised by Michael Halliday, who took the notion of system from J. R. Firth, his teacher (Halliday, 1961).Firth proposed that systems refer to possibilities subordinated to structure; Halliday "liberated" choice from structure and made it the central organising ...

Perhaps, the most important, and challenging, task for the peace researcher is to establish and maintain a systematic perspective on the general condition of peace in the global system. Without that, progress toward the greater peace cannot be accurately gauged and policies cannot be properly evaluated. Measuring systemic peace is a necessarily holistic endeavor.
