Long-term care (LTC) is a variety of services which help meet both the medical and non-medical needs of people with a chronic illness or disability who cannot care for themselves for long periods. Long term care is focused on individualized and coordinated services that promote independence, maximize patients' quality of life, and meet patients' needs over a period of time.

Long-term care - Wikipedia

Health exchanges first emerged in the private sector in the early 1980s, and they used computer networking to integrate claims management, eligibility verification, and inter-carrier payments.

A bipartisan pair of U.S. senators want to give Wall Street's top cop more power to recover funds for burned investors, the Wall Street Journal reported. The legislation, to be introduced today, would allow the Securities and Exchange Commission to recover money for harmed investors based upon wrongdoing that occurred as much as a decade ago.
