A medical abortion, also known as medication abortion, is a type of non-surgical abortion in which medication is used to bring about abortion. An oral preparation for medical abortion is commonly referred to as an abortion pill. Medical abortion became an alternative method of abortion with the availability of prostaglandin analogs in the 1970s and the antiprogesterone mifepristone (also known ...

Medical cannabis, or medical marijuana, is cannabis and cannabinoids that are prescribed by physicians for their patients. The use of cannabis as medicine has not been rigorously tested due to production and governmental restrictions, resulting in limited clinical research to define the safety and efficacy of using cannabis to treat diseases. Preliminary evidence suggests that cannabis can ...
