The Facts . . . and the Problems. Flying is generally considered to be one of the safest forms of public transportation currently available in the United States. Statistics compiled by the Department of Transportation have led to the conclusion that airline travel is 29 times safer than driving an automobile.. The problem with the above statistics is that they do not stop people

Fear of Flying: Symptoms, Medical Issues, and Treatment

Medical diagnosis (abbreviated Dx or D S) is the process of determining which disease or condition explains a person's symptoms and signs. It is most often referred to as diagnosis with the medical context being implicit. The information required for diagnosis is typically collected from a history and physical examination of the person seeking medical care. . Often, one or more diagnostic ...

Modern day simulation for training was first utilized by anesthesia physicians in order to reduce accidents. When simulation skyrocketed in popularity during the 1930s due to the invention of the Link Trainer for flight and military applications, many different field experts attempted to adapt simulation to their own needs. Due to limitations in technology and overall medical knowledge to a ...
