The legal definition of a town in Canada varies by province or territory, as each has jurisdiction over defining and legislating towns, cities and other types of municipal organization within its own boundaries.. The province of Quebec is unique in that it makes no distinction under law between towns and cities. There is no intermediate level in French between village and ville (municipality ...

A power station, also referred to as a power plant or powerhouse and sometimes generating station or generating plant, is an industrial facility for the generation of electric power. Most power stations contain one or more generators, a rotating machine that converts mechanical power into electrical power. The relative motion between a magnetic field and a conductor creates an electrical current.

Most people, when they ride a bike, tuck their pelvis so the rear portion of their sitz bones rests on the seat. Then they lean over to reach the handlebars causing a lot of spine curvature. With the additional tension created from pushing the pedals and holding the handlebars, and the bouncing and jostling from the road, riding a bike this way can be a painful and harmful activity. Many modern ...
