Y-chromosomal Adam is the most recent male ancestor from whom all current living humans are descended—in other words, he's not just your great 14,000 grandfather, he is everyone's great 14,000 grandfather, and the last time in history a common male ancestor to all of us lived. All ancestors we discuss from this point onward are common to the entire human race.

### **Meet Your Ancestors (All of Them) — Wait But Why**

In *Tracing Your Ancestors' Childhood* she explores the history of childhood and education and brings together information about relevant records and archives into one handy reference guide. She outlines ancestors' childhood experiences at home, school, work and in institutions, especially during Victorian times.
