A figure of speech or rhetorical figure is figurative language in the form of a single word or phrase. It can be a special repetition, arrangement or omission of words with literal meaning, or a phrase with a specialized meaning not based on the literal meaning of the words.

Figure of speech - Wikipedia

Polygyny occurs when one male gets exclusive mating rights with multiple females. In some species, notably those with harem-like structures, only one of a few males in a group of females will mate. Technically, polygyny in sociobiology and zoology is defined as a system in which a male has a relationship with more than one female, but the females are predominantly bonded to a single male.

Animal sexual behaviour - Wikipedia

ADVERTISEMENTS: This article provides notes on Asian Vegetable Research and Development Centre (AVRDC). Like in other crops international research centres can contribute substantially towards solving the problems that limit vegetable production because several research constraints are global in nature and need the research support by a well staffed and adequately equipped central international ...
