memory boosters how to pdf

In medical terms, a booster dose is an extra administration of a vaccine after an earlier (prime) dose. After initial immunization, a booster injection or booster dose is a re-exposure to the immunizing antigen. It is intended to increase immunity against that antigen back to protective levels, after memory against that antigen has declined through time.

Dietary supplements may seem like harmless health boosters. But while some have proven benefits, many don't. Unlike drugs, dietary supplements aren't evaluated or reviewed by FDA for safety and effectiveness, and even "natural" supplements can be risky depending on the medicines you take or the medical conditions you have.
