A warp drive is a fictitious superluminal spacecraft propulsion system in many science fiction works, most notably Star Trek. A spacecraft equipped with a warp drive may travel at speeds greater than that of light by many orders of magnitude. In contrast to some other fictitious FTL technologies such as a jump drive, the warp drive does not permit instantaneous travel between two points, but ...

Repressed memories are memories that have been unconsciously blocked due to the memory being associated with a high level of stress or trauma. The theory postulates that even though the individual cannot recall the memory, it may still be affecting them subconsciously, and that these memories can emerge later into the consciousness. Ideas on repressed memory hiding trauma from awareness were ...
